Request for Proposal 3675

Presented By

- <u>Bureau of Genetic Services</u>

  Beryl W. Polk, PhD

  Philis Hoggatt

  Patricia Terry

  Tony Williams

- <u>Information Technology Services</u>

- Tangela Harrion

RFP 3675 Objective

- The objective for this Web conference is:

  - To provide a high level understanding of RFP 3675

  - Questions and Answers

  - Next Steps

Program Background

- Administers the State Newborn Screening, Early Hearing and Birth Defects Registry Surveillance Programs

- Provides follow up for all newborns identified with inconclusive or presumptive positive screening results

- Provides follow up for all infants who fail a hearing screen test

Background Cont'd

- Tracks children ages birth to 21 years old identified with a birth defect to include in the state birth defects registry

- Coordinates care for Children with Special Health Care Needs (CSHCN) in the state

Project Phases

Phase I Delivery

- Installation of TEST

  Documentation

  Installation objects

  Database conversion

  plan and/or scripts

Phase II Delivery

- Successful Deployment to QUALITY ASSURANCE

  Training

Phase III Delivery

- Successful Deployment to PRODUCTION

  Release of Retainage

Goals

- To implement a web-based Metabolic (Newborn) Screening Database, Case Management System, Long-Term Follow up and Birth Defects Registry Surveillance System

- The system should allow for additional modules over time (Early Hearing, Early Intervention – Part C, Lead Screening, etc)

Goals Cont'd

- To replace the current Microsoft Access 2003, database with a web-based system

- To seamlessly integrate the web-base system with the MSDH Document Management and Workflow System

Project Overview

- Flexibility for future development and enhancements

- Scalability... A path for future growth

- Simplicity... Easy to Use

- Seamless integration

Project Overview Cont'd

- The system must provide a communication mechanism within the application

  – Generate Alerts

  – Send and Retrieve Messages

  – Track screening results

Project Overview Cont'd

- The system must include robust Reporting capabilities

  - Build pre-defined reports

  - Provide ad hoc reporting capabilities with drag and drop functionality

  - Provide boiler plate report templates

Custom Web Development

- Billing/Payment Management System

  - Ability to link Test Results/Reports and invoices together

  - Provide the ability to capture payment information

  - Provide the ability to associate supporting document (payment) with invoice

Next Steps

- Deadline for Vendor's Written Questions are December 7, 2011 at 3:00 p.m. Central Standard Time

- Proposals are due January 5, 2012 at 3:00 p.m. Central Standard Time

Questions

- Questions/Comments
